Objective:

Seeking opportunities in Frontend Developer roles to design and implement visual and interactive elements of a website or web application that users engage with directly. Translate UI/UX design wireframe into code, ensuring an optimal user experience across various devices and browsers. Bridging the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks and works. Creating visually appealing and user-friendly web interfaces.

Key Points:

- **Developing User Interfaces:** Creating functional and appealing web pages and applications using HTML, CSS, and JavaScript.
- **Ensuring Responsiveness:** Making sure web applications work well on various devices, including desktops, tablets, and smartphones.
- **Collaborating with Design Teams:** Working closely with UI/UX designers to translate visual designs and wireframes into code.
- **Performance Optimization:** Ensuring fast load times and efficient performance by optimizing code, assets, and overall application architecture.
- **Cross-Browser Compatibility:** Ensuring the application works correctly on all major browsers.
- **Testing and Debugging:** Writing and running tests to ensure code quality and fixing any issues that arise.
- **Keeping Up-to-Date:** Staying current with the latest industry trends, technologies, and best practices.

Qualifications:

National Youth Service Corps (NYSC) in Computer Science	2022
--	------

The Believer Life House Media, Makurdi, Benue State

Higher National Diploma (HND) in Computer Science	2021
--	------

Temple Gate Polytechnic, Aba, Abia State

National Diploma (ND) in Computer Software	2017
---	------

St. Winifred Innovative Institute, Ibadan.

Secondary School Leaving Certificate	2014
---	------

Professional Qualification

Cisco Certified Network Association Certificate

2019

Microsoft Digital Literacy Certificate

2016

Work Experience:

Westgate Technologies, Lagos.

Graphics and Website Inspector

2024 - Date

- Create visually appealing designs, this includes designing logos, illustrations, layouts, or other graphical elements.
- Enhance brand identity, ensure that the design elements created align with the brand's identity and effectively convey its values and message.
- Ensure functionality and usability: Focus on assessing the functionality and usability of websites to ensure they meet quality standards and user expectations.
- Identify and fix bugs: Actively search for bugs, glitches, or errors in website functionality and report them for resolution.
- Improve performance: Analyze website performance metrics such as page load times and optimize them to enhance user experience.
- Provide feedback and recommendations: Offer constructive feedback to developers and designers on how to improve the website's functionality, usability, and overall quality.

Promasidor Nigeria, Lagos

2023 - 2024

GTM Officer

- Diagnose and resolve technical issues for customers
- Provide guidance and assistance with software and hardware usage
- Document and escalate complex issues to higher-level support teams if necessary.
- Create user-friendly documentation, manuals, and guides to aid in product understanding and usage

The Believer's Life House Media, Makurdi

2022 - 2023

Tech Support / Tech Communicator

- Diagnose and resolve technical issues for customers
- Provide guidance and assistance with software and hardware usage
- Document and escalate complex issues to higher-level support teams if necessary.
- Translate technical information into easily understandable language for non-technical users
- Facilitate effective communication between technical and non-technical stakeholders
- Create user-friendly documentation, manuals, and guides to aid in product understanding and usage

Computer Instructor/ICT Support Officer

- Educate students or employees on computer fundamentals, software applications, and IT concepts.
- Design and deliver engaging lessons and training sessions to enhance computer skills.
- Provide individualized assistance and support to learners to ensure comprehension and mastery.

Wintech I.T Solution, Ibadan

2017-2019

I.T Staff /Database Administrator

- Manage and maintain databases to ensure efficiency, security, and integrity of data.
- Implement database upgrades, backups, and recovery plans to prevent data loss.
- Monitor database performance and troubleshoot issues to optimize system functionality

Acquired Skills

- **Proficiency in Frameworks:** Expertise in framework such as React or Vue.
- **HTML, CSS, and JavaScript:** Strong foundation in HTML, CSS, and JavaScript for creating and styling mobile user interfaces.
- **Responsive Design:** Ability to design and implement responsive layout s that work across different screen size and orientation.
- **Version Control:** Proficient in using version control systems like Git for managing codebase changes and collaboration.
- **Performance Optimization:** Skills in optimizing web performance through techniques like lazy loading, code splitting, and minification.
- **API Integration:** Experience in integrating mobile application with RESTful APIs and third-party services.
- **UI/UX Design Principles:** Understanding of user interface (UI) and user experience (UX) design principles to create intuitive and engaging applications.
- **Testing:** Experience with testing tools and frameworks such as Jest, Mocha, and Cypress.
- **Build Tools:** Familiarity with build tools like Webpack, Babel, and task runners like Gulp.

Technologies and Tools

- **Languages:** HTML, CSS, JavaScript (including modern ES6+ syntax)
- **Frameworks/Libraries:** React, Angular, Vue.js, jQuery
- **Build Tools:** Webpack, Babel.
- **Version Control:** Git, GitHub.
- **Package Managers:** NPM, Yarn
- **Design Tools:** Adobe XD, Figma, Sketch
- **APIs:** RESTful services, GraphQL
- **CSS Preprocessors:** SASS, SCSS, Less.
- **Testing Tools:** Jest, Mocha, Cypress, Jasmine
- **Other Tools:** Docker, CI/CD pipelines.
